FOOD SAFETY COMPLIANCE

Dear customer:

Greenwood Associates, Inc. has addressed the issue of food safety by installing preventative measures to minimize the risks of tampering or criminal terrorist actions. Our principals follow the FDA guidelines dated January 9, 2002, for food producers, processors, transporters and retailers found at www.cfsan.fda.gov/~dms.secguid.html. Issued by the USFDA Center for Food Safety and Applied Nutrition, the Guidance for Industry is titled Food Security Preventative Measures Guidance and is intended for use with FDA's Good Guidance Practices regulation.

Use our number 847-579-5500 as an emergency point of contact during normal business hours, or 847-910-0445 after hours.

Sincerely,

Steve Herman
Manager of Regulatory Affairs
Greenwood Associates, Inc.
