

## Relationship Statement

- **Greenwood Associates Inc. (“GAI”)** is a trading entity with long-standing relationships with processors and raw material suppliers in over 30 countries.
- **Florida Bulk Sales, Inc. (“FBS”)** is a commonly controlled and operated trader/distributor providing global sales and procurement services.
- Both trading entities rely heavily on the manufacturing and warehousing services provided by **Chicago Processed Fruit Group, LLC (“CPFG”)**, GAI’s commonly controlled and co-managed affiliate.

Not all products distributed by GAI and FBS is manufactured by CPFG, although all entities operate from a shared facility in Niles, Illinois (USA.) The flowchart below may help illustrate our inter-company processes:

Please note that because of the many factors that impact fruit product availability, from global weather to local crop conditions, maintaining a flexible, multi-supplier, multi-origin strategy is essential to our role in protecting our customers’ supply chains. Although this strategy is key to our ability to provide consistent, uninterrupted supply, it unfortunately prevents us from making forward-looking commitments regarding single suppliers/sources for the bulk of our offerings.
