

Sustainability Statement

Dear Valued Customer,

Greenwood Associates, and its affiliates Chicago Processed Fruit Group (CPFG) and Florida Bulk Sales, are committed to conducting business with the highest standards of ethics and integrity and in compliance with applicable laws, regulations, and industry standards. Since 1974, we have treated our customers, vendors, and employees with the utmost respect and compassion. As our manufacturing affiliate, CPFG maintains a rigorous food safety management system certified under FSSC22000 .

As an importer of global agricultural products, Greenwood has high standards for suppliers with regard to quality, labor practices, and sustainability. We recognize that working together with our suppliers and other business partners allows us to collectively make the greatest impact while continuing to provide safe, high quality raw materials with an eye toward building a sustainable future for all.

Our sustainability plan, which continues to evolve as we grow and improve, includes the following elements:

- Full compliance with environmental law and regulation.
- Maintain a careful process for raw material acquisition, including long term supply chain relationships. We encourage our suppliers and other vendors to implement and continuously improve systems to ensure that safe and high-quality raw materials can be produced and delivered with the least environmental and social impact
- Reduce emissions to the environment at each step.
- Promote recycling, reuse, and alternative energy strategies across the supply chain.
- Support sustainable farming practices and emission controls at every opportunity.
- Careful screening to exclude the use of all forms of forced labor, indentured labor, or other modern forms of slavery or human trafficking from our supply chain.
- Provide a safe, equitable, and balanced workplace for our employees.
- Regularly analyze the performance of the above efforts, so that we may continue to align our strategy with the needs of our stakeholders and the challenges of our industry, set goals and action plans, and ensure adequate monitoring and allocation of resources.

As family-owned companies, Greenwood, CPFG, and Florida Bulk embrace our responsibility to our employees, suppliers, customers, and to future generations.
